Common tasks

To do this	Do this
Disable all add-ons	Windows logo key + R > iexplore.exe –extoff
Turn on AutoComplete so that website addresses will be automatically filled in for you if you begin to type them again	Tools > Internet Options > Advanced > Use inline AutoComplete
Change how tabs work in Internet Explorer	Tools > Internet Options > on the General tab, under Tabs, click Settings
Display the Menu Bar at the top of the screen	To display temporarily: press the ALT key To display permanently: Tools > Menu Bar
Delete cookies, passwords, form data, history, and temporary Internet files	Tools > Delete Browsing History
Find and install add-ons	Tools > Manage Add-ons > Find More Add-ons
Print part of page	Select part of the page you want to print, press CTRL+P, click Selection , and then click Print
Change website address suffix*	Tools > Internet Options > Languages

* - For example, if you chose "net" for the website suffix, pressing CTRL+SHIFT+ENTER would add "http://www." to the beginning and ".net" to the end of the address in the Address Bar.
